

"SHANA TOVA"

paper mosaic instructions

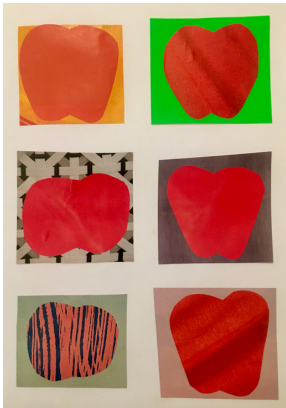

Materials: 1/2 sheet paper, scissors, glue stick, magazine, pencil

STEP 1

Fold your paper in half and divide the page into thirds. Flip through your magazine(s) and cut out 6 similarly sized squares out of different colors/patterns. Glue the squares down.

STEP 2

Search for all different shades of reds, pinks, greens, yellows to make your apples. Cut out 6 different shaped apples and glue each one on top of a square.

STEP 3

Add stems and leaves to your apples. Glue the stems down a little below the top of your apple to give the apples some depth.

STEP 5

Finish up by glueing scrap pieces on top of your apples for texture and to make them pop!
